

Advanced Security and Compliance Assessment

Test your security posture before someone else does.

Cyber crime damage costs are expected to hit \$6 trillion annually by 2021. No business is excluded from these threats. The game has changed, are you prepared? With this assessment, InsITe engineers will leverage advanced security tools and discovery processes to determine your complete security posture, and help build a plan to remediate any gaps.

Simulated phishing attacks to test the weakest link - your employees

Affordable **enterprise-class security** to protect you from all angles

Assessment and remediation plans for **GDPR, HIPAA, GLBA, PCI, ITAR** compliance

Compliance to the highest standards: **ISO, NIST, ITIL**

There's a lot to consider - all businesses are unique - but our expert consultants and engineers will determine the best solution. We work towards finding the **technology solutions that best suit our clients' needs** to improve security, efficiency, integration, and insights. We're not a typical IT company selling products for short-term, short-sighted fixes. **We invest in long-term solutions for a company's growth** by taking the time to learn its products, process, and business goals before bringing tech into the conversation. In this way, we become much like our client's very own internal IT department with familiar faces who understand the business and are ready to help. We offer a variety of core competencies to **fully support a company's IT and technology needs 24/7.**

We Make It Easy

Our assessment quickly uncovers security and compliance gaps, no commitment required. We then provide a step-by-step remediation plan with cost estimates.

All Encompassing

Ensure security and compliance across all systems, devices and people. InsITe will provide long-term security and compliance solutions based on the whole picture.

Deliverables:

- + **Peace of mind**
- + **Complete documented security landscape: Systems, Devices, People**
- + **Risk mitigation action plan**
- + **Complete cost estimate to address gaps**
- + **Understanding of today's security landscape**
- + **Raw collected data available if desired**

Manage It

InsITe provides Managed Security Services that can protect you end to end. If you have specific compliance requirements, we'll come up with a plan for you!

Share Ownership

We aren't here to keep our processes and tools secret. We work alongside your Team to leverage our best in class toolset and work as an extension of your Team.

Does Your Business Meet These Standard Technology Security & Compliance Requirements?

General Data Security

Organizations will need to:

- Perform regular security training for employees
- Maintain up to date patching
- Secure mobile device access
- Control cloud data sharing
- Encrypt mobile endpoints
- Physically secure data

Personal Privacy

Individuals can:

- Access their personal data
- Correct errors in their personal data
- Object to processing of their personal data
- Erase and export their personal data

Controls & Notifications

Organization requirements:

- Protect personal data using appropriate security
- Notify authorities of personal data breaches
- Obtain appropriate consents for processing data
- Keep records detailing data processing

Transparent Policies

Organizations will need to:

- Provide clear notice of data collection
- Outline processing purposes and use cases
- Define data retention and deletion policies

Providing the tech that forms the basis of your security today

Process all in one place

Centralize processing in a single system, simplifying data management, governance, classification, and oversight.

Maximize your protections

Protect data with industry leading encryption and security technology that's always up-to-date and assessed by experts.

Streamline your compliance

Utilize services that already comply with complex, internationally-recognized standards to more easily meet new requirements, such as facilitating the requests of data subjects.

We'll work with you to uncover risk and take action

Discover data across systems

- Discover and catalog data sources
- Increase visibility with auditing capabilities
- Identify where personal info resides

Govern access and processing

- Enforce use policies and access controls
- Classify data for simplified compliance
- Respond to data requests and requirements

Protect through the entire lifecycle

- Protect user credentials with conditional access
- Safeguard data with built-in encryption
- Rapidly respond to intrusions with built-in controls to detect and respond to data breaches

About our security solutions: We will...

- Educate so you can make informed, smart security decisions
- Custom tailor your security audit and solutions
- Integrate security solutions with a Managed Services offering
- Make the complex world of security simple
- Work with your existing Team, or on your behalf

"The team at InsITe has consistently provided timely, value-focused services... the services are always tailored to the individualized needs of our organization. I would highly recommend InsITe's services to any company requiring cost-effective and customized IT services... We are looking forward to our next project with the team at InsITe!"
