

# Identity Consolidation and Access Management

## Too many passwords? Manage access to all accounts with Single Sign On (SSO) and audited, managed authentication

Enable complete visibility and auditing of access, device, username, time, and more. Stop account passwords from multiplying and ending up on sticky notes around the office, exposing corporate data. InsITE makes it easy to centrally manage SSO access to multiple accounts and business applications.

Enhance security profiles with authentication of users based on **access level** and **identity attribute**

**Easy access no matter where you are**, allowing users to log-in to interconnected systems anywhere

**Increase productivity** and **reduce IT costs** by eliminating calls to help desks for forgotten passwords

There's a lot to consider - all businesses are unique - but our expert consultants and engineers will determine the best solution. We work towards finding the **technology solutions that best suit our clients' needs** to improve security, efficiency, integration, and insights. We're not a typical IT company selling products for short-term, short-sighted fixes. **We invest in long-term solutions for a company's growth** by taking the time to learn its products, process, and business goals before bringing tech into the conversation. In this way, we become much like our client's very own internal IT department with familiar faces who understand the business and are ready to help. We offer a variety of core competencies to **fully support a company's IT and technology needs 24/7**.

### Improve Experience

In an increasingly competitive environment, companies strive towards smoother user experiences and boosted efficiency for staff and clients.

### Simplify Compliance

An effective SSO implementation and centralized password management system simplifies HIPAA, GDPR, and PCI compliance.

### Reduce Fatigue

Users no longer need to remember and manage multiple passwords. SSO reduces the number of complicated passwords written on sticky notes or saved in folders.

### Improve Security

When deployed properly, SSO leads to security improvements as they are based on complex systems management applications that centralize authentication.

### Save Time

SSO allows users to sign in just once and have access to all of their authorized applications without keeping track of multiple passwords.

### Easy Management

SSO makes it easy to manage accounts and provides a simple, clear interface for identity management and permissions across all integrated systems.

# Process Matters

We're **not your typical IT company**, and we mean it. We provide long-term IT solutions tailored for each business.

## 1. Evaluate

- We speak with you, your management, and your employees to **gain understanding**
- We clarify the needs you have now, which allows us to **anticipate needs** you might have in the future

## 2. Strategize

- Once we have complete understanding it's time to **work with you** to develop a technology strategy
- We design a **holistic road-map** that connects and enhances your people, process, and the tech you use

## 3. Integrate

- This might be our favorite part. It's where the **IT solutions become a reality** in your workplace
- From **improvements in productivity**, to cloud-based collaborative programs, we **implement the changes**

## 4. Maximize Results

- As we manage your systems and take on projects with your business, we **keep an eye on future needs** too
- We can maintain your current systems at top power or plan out the **most fitting solution** for new opportunities

## Quick Value Starter

Our process is so easy to get started! We offer 8, 24, or 48hr Quick Value Starters (QVS) that can include the following:

**Discovery:** where we come to understand your business needs

**Solution:** we create a complete, tailored strategy

**Educational Mindset:** educating our clients so they can make great decisions

**Transparency:** all relative info and data is shared if desired

## InsITe Advantage

We employ our **ESIM (Evaluate, Strategize, Integrate, Maximize Results)** process in every project we take on. ESIM is the secret ingredient in all we do, and this mindset makes sure we **understand the problem before we strategize to find the best solution**. It is a structured approach to your needs and allows us to find the very best solutions for your business, long-term.
