

Office 365 Productivity Workshop

An facilitated, hands-on workshop for Business Decision Makers

Save money, learn at least five new skills, and get trained for free in the Office 365 suite.

Designate one or several people from your company to attend!

What It Is:

- ☒ A learning experience to better understand the tools you use everyday or what's available to make your job even easier
- ☒ A custom session guided by you and your colleagues' interests, priorities and needs - involvement is a must!
- ☒ A facilitated walk-through of a live environment in the cloud to explore what's possible
- ☒ Fun! Each participant will select a character or "persona" to play for the session

Tell us your challenges and we'll take a deep dive into the ways the Office 365 Suite can solve them.

What It's Not:

- ☐ A sales pitch that leaves you unfulfilled with more questions than answers
